Summary

The NorCal Science Festival is a free one-day celebration of science and technology featuring presentations, hands-on activities, and special exhibitions designed to entertain all ages.

Description

The NorCal Science Festival is an annual celebration of science and technology at Tokay High School in Lodi featuring presentations, hands-on activities, and special exhibitions designed to entertain all ages. The mission of the student-teacher organized festival is to stimulate community engagement in the sciences and promote creativity and innovation in future generations. Admission is free to this one-day event with a schedule of activities including presentations from World of Wonders Science Museum, LED circuit building, paper airplane engineering, electric vehicle display, robotics demonstrations, coding sessions, 3D pen creative play, engineering stations, rock painting, solar play, a STEM Career Exploration room, a mobile Star lab, NASA speakers and much more!
