

CA Environmental Phenomena Summit

#ProjectPhenomena

CA Environmental Phenomena Summit in East Bay Regional Park!

Spend two days collaborating with a local science expert and other educators from the region. Learn about local, environmentally-focused phenomena. Deepen your understanding of Phenomena and the Environmental Principles and Concepts. Contribute to a resource that will be shared with other CA teachers who are looking to get started with phenomena-based NGSS lessons.

The instructional resource will:

- Identify a useful, environmentally-focused phenomenon
- Provide a grade-level appropriate explanation that incorporates Disciplinary Core Ideas and Crosscutting Concepts
- Highlight possible student activities that emphasize the Science and Engineering Practices
- Connect to the Environmental Principles and Concepts

Designed for K-12 Classroom Teachers and out-of-school educators experienced with NGSS and interested in environmental phenomena.

This project is funded through Budget Act of 2017, Item 6100-488-0001, Provision 6

March 27-28, 2019
8:30 a.m. to 4 p.m.
 Check-in for the two-day summit begins at 7:30 a.m.

\$150 per attendee.
Fee includes all materials, continental breakfast and lunch on both days.

Deadline for registration: Mar. 13, 2019

Tilden Regional Park, Brazilian Room
Wildcat Canyon Road at Shasta Road
Berkeley, CA 94708
